Client Release

Update 19
Thursday 24th July 2022
NZ MPI reference: 11443793806.

Adhesif Labels continues to be fully operational throughout all levels of the C-19 pandemic as essential business providers and we are registered on the Close Contact Exemption Scheme as a Critical Service.

The Covid landscape continues to change, and we are seeing a second wave of Covid return to the business.

When considering our options there are two main criteria that we consider:

1. Health and wellbeing of our staff
2. Business continuity

Therefore, we have changed our operating conditions as follows:

- Shifts have resumed a separation period of 15 minutes between shifts
- Press passes can continue but will be conducted without entering the factory
- Regular RAT testing is being undertaken under agreed conditions
- Mask wearing for trades and associated services in the building will be required
- Our office bound staff continue to work as normal

We continue to be agile and can return to various levels of operations at a moment's notice. Our Covid Response Team remains in place for the near future as we remain committed to providing an ongoing uninterrupted supply chain and a protected place of work.

If you have any questions, please do not hesitate to reach out to us or contact me directly.
